# SAPST in Portland

## \* Substance Abuse Prevention Skills Training

The Substance Abuse Prevention Skills Training (SAPST) is a foundational course of study in substance abuse prevention. This four-day, in-person training prepares participants to move from prevention science and theory to practice using the Strategic Prevention Framework.

### The SAPST prepares participants to:

- Address substance abuse prevention in the context of behavioral health
- Improve practice by developing a comprehensive approach to prevention guided by SAMHSA's Strategic Prevention Framework
- Reduce behavioral health disparities by identifying the needs of vulnerable populations and improving cultural competency
- Sustain prevention by collaborating effectively across sectors to address shared risk factors and improve the health and well-being of communities in a cohesive way

The IC&RC Prevention Committee has endorsed the new SAPST as an IC&RC approved curriculum. The SAPST has also been approved by the Mental Health and Addiction Certification Board of Oregon (MHACBO) for Prevention Specialist certification (CPS). Participants completing the SAPST will receive a certificate for 25 hours of participation which satisfies CPP/CPS initial and CPP/CPS/CASAC renewal requirements.

**Many thanks to the Oregon Public Health Association's (OPHA)**

**Addiction Prevention Section for hosting this training, registration, and payment process.**

Registration for all SAPST events will be capped at 25 participants in order to ensure a high quality experience.

### OCTOBER DOESN'T WORK?
